The National Institute of Industrial Engineering & Director General Resettlement

The National Institute of Industrial Engineering (NITIE), since its inception in 1963, has gradually transformed itself into a Centre of Excellence for Business Studies. As per the NIRF rankings of 2022, the institute is Ranked 9th amongst the top Management Institutions in the country and Ranked 4th in the field of Production by Economics Times India's Preferred B-Schools in 2020. It is a progressive testimony to its state-of-the-art facilities, rigorous curriculum, and above all, its country's renowned and dedicated faculties, who hold experience in regularly contributing to national-level projects, planning and policy formulation with NITI Aayog.

Always looking to create proficient and worthy Business Leaders, NITIE has partnered with the Indian Armed Forces to tap the enormous talent and leadership potential of these Officers from the Army, Navy, and Air Force. The General Management Programme (GMP) for Defence officers is a coming-together of these two great institutions to re-skill and re-arm the defence officers transitioning to the Corporate. Irrespective of the domain specialisation, these officers develop innate leadership skills and team-building capabilities due to the rigors of their everyday work in the service of the Nation. These officers looking forward to a mid-career transition may require minor re-moulding, which the NITIE faculty, like skilled sculptors, skilfully craft in ample measure during the intensive Course.

GENERAL MANAGEMENT PROGRAMME FOR DEFENCE OFFICERS

The General Management Programme for Defence Officers at NITIE is a fully residential, rigorous 24 weeks management course. It comprises of 50 officers with diverse backgrounds, professional expertise, educational qualifications, and fields of service. The course curriculum for DGMP is designed contemporarily and distributed into two semesters. The Core and Elective courses equip the participants with the fundamental concepts and analytical skills necessary for corporate governance and leadership. The elective courses impart a profound understanding of focused functional areas to the participants and enable them to specialise in areas of their preference. Further, the unique blend of elective and core subjects helps them acquire a detailed insight into the intricate interrelationships in business management. The framework assists them to be more efficacious in the jobs they embrace during their transition to the corporate world and helps them incisively comprehend the challenges in associated domains of the organisation.

At NITIE, the predominant pedagogic tool used is case studies, projects, assignments, analyses, and discussions in applied learning labs and seminars based on industry and firm-specific challenges. Industry-relevant projects focus on industrial applications (tools and techniques) to solve real-time business problems. In addition, regular visits to various industries generate first-hand understanding and a deeper comprehension of the work environment.

MESSAGE FROM DIRECTOR GENERAL, RESETTLEMENT

Maj Gen Sharad Kapur, YSM, SM

“

DGR has collaborated with premier management institutes to prepare the veteran officers of the Indian Armed Forces for a smooth transition to a Corporate Career.”

Directorate General Resettlement (DGR) is the principal Tri-Service organization functioning directly under the Department of Ex-Servicemen Welfare (DESW), Ministry of Defence. The primary role of DGR is to empower retiring/retired service personnel with additional skills through training courses and assist them in choosing a second career post retirement. Armed Forces Personnel, having acquired specific competencies during their service career, need to re-orient their skills for seamless transitioning. DGR endeavours to facilitate this by providing opportunities to service personnel for such reorientation to. To ensure a high degree of employability, the aim of DGR has always been to align the resettlement training of veterans with the emerging and evolving requirement of the corporate world. In pursuit of this challenging task, DGR has collaborated with premier management institutes to prepare the veteran officers of the Indian Armed Forces for a smooth transition to a “Corporate Career”.

NITIE Mumbai, one of the country's finest management institutes, has been a valuable addition to this endeavour. With a legacy of 60 years at par with oldest IITs and IIMs, the institute has an unparalleled reputation and outstanding faculty. Under the stewardship of the Director, Dr Manoj Kumar Tiwari, NITIE has attained 9th Rank in the 2022 NIRF Management Rankings.

The Defence General Management Programme (DGMP) organised by NITIE has been specially designed to equip the officers with comprehensive knowledge of contemporary management practices. The course provides them with the conceptual and analytical tools to be effective managers in the present and emerging business environment.

The third batch of the DGMP Course consists of dynamic and seasoned leaders who executed large projects, initiatives and operations in some of the most challenging environments across the country. The talent pool of the batch encompasses the fields of Operations,

Administration, Project Management, IT, SCM, Logistics, Security and Human Resource Management. These promising and resolute military leaders of DGMP-03 offer the right mix of grit, perseverance and leadership in a VUCA environment. Their unique skills, qualifications and experience will be an asset to the corporate organisations they would serve.

I urge potential recruiters to collaborate with NITIE to harness their diversified skills and tap into their true potential for the country's socio-economic growth. I wish the DGMP-3 batch the very best in all their future endeavours.

MESSAGE FROM DIRECTOR

Prof Manoj K Tiwari

“

We at NITIE Mumbai are sanguine that the corporate elite would benefit immensely by employing these multi-skilled, multifarious and multi-dimensional Officers.”

Dear Recruiters,

Greetings from NITIE Mumbai!!

It gives me immense pleasure to introduce the third batch of the Defence General Management Programme (DGMP) which is a six-month residential course in Business Management for Officers of the Armed Forces at NITIE, Mumbai. The programme is designed to facilitate smooth transition of these talented leaders from Services to mid-level and senior-level positions in the corporate world. With their outstanding service records in the Military, these Officers bring on board exceptional qualities of leadership, determination, dedication, and loyalty that would be impossible to replicate anywhere else in an Organisation they move in. Within

this programme, we have invested in the best possible academic and practical resources and trained them to adhere to the finest ethical industrial practices.

The DGM Programme course has been specifically designed to challenge the participants to think beyond the classroom and promote introspection into the highest level of management problems craft out a suitable solution. Their respective professional domains and solid skills from NITIE to address comprehensive business's dimensions will definitely prove invaluable to the corporate community.

Considering the unique values that comes along with these uniformed Officers, coupled with multi-tasking

abilities under extremely high-pressure situations, NITIE's DGM Programme evolves these officers into best suited for the ever dynamic business environment. We at NITIE Mumbai are certain that the corporate elite would gain immensely by employing these multi-skilled and highly experienced Officers.

We at NITIE Mumbai are sanguine that the corporate elite would benefit immensely by employing these multi-skilled, multifarious and multi-dimensional Officers.

My best wishes to them for all their future endeavours.

DEAN'S INVITES

Prof. Vivekanand Khanapuri

Dean, SRIC

“

These officers of the Indian Armed Forces are a group of highly committed professionals with significant experience working in varied domains such as Operations, Supply Chain Management, Engineering, Administration and Human Resource Management.”

It gives me immense pleasure to introduce the third batch of officers from the Indian Armed Forces undergoing the Defence General Management Program (DGMP) 2022-23 in Business Management at NITIE, Mumbai. These officers of the Indian Armed Forces are a group of highly committed professionals with significant experience working in varied domains such as Operations, Supply Chain Management, Engineering, Administration and Human Resource Management in challenging environments, performing extraordinary tasks

under impossible situations and delivering excellent results. During these past few months, the highly experienced faculty at NITIE has adequately grilled these officers and assure that these officers bring exceptional leadership, perseverance, dedication, and would surely contribute towards making an organisation agile and lean.

With an amalgam of skills, temperament and experience, they naturally bring competencies which otherwise are a premium in today's business world. The corporate

community will benefit immensely by utilizing their skills, ability and commitment.

I urge you, as recruiters, to collaborate with us at NITIE, Mumbai, and benefit by harnessing their skills and translating their potential towards the nation's socio-economic growth. I wish the batch the very best in all their endeavours in future.

Prof. Rauf Iqbal

Dean, Student Affairs & Program Chair

“

Being cognizant of ever-changing needs of the dynamic business environment, students at NITIE are exposed to the academic rigor and practical know-how that matches the benchmarks set by the industry.”

NITIE, as an institute, focuses on education that strengthens the knowledge base, and is aimed at bringing out world-class professionals who would be the guiding light for the development of businesses and industry. Additionally, our industry-oriented courses open a plethora of diverse mindsets and inculcate managerial skills in our students, keeping them updated and industry ready for the ever-changing market scenario. The students develop a sense of ownership, coupled with analytical and problem-solving skills. Being cognizant of ever-

changing needs of the dynamic business environment, students at NITIE are exposed to the academic rigor and practical know-how that matches the benchmarks set by the industry. This has enabled them to provide solutions to the complex problems of enterprises.

We take immense pride in hosting the General Management Program for the Defense officers (DGMP) at NITIE to facilitate the smooth transition of these Invictus leaders from uniform services to the corporate world.

We extend a hearty invitation to all recruiters to come and participate in the Placement Process of these Experienced and Talented leaders to facilitate economic and societal growth in business. I convey my Best wishes for their entry into the corporate world.

Prof. Vivek Khanzode

Dean, Planning & Coordination

“

The participants throughout the tailor-made course are exposed to the current business scenarios, armed with state-of-the-art concepts and analytical tools enabling them to be ready for industry challenges.”

The ongoing set of DGMP Officers are highly committed and focused professionals with the ability to succeed in any challenging environment. The enthusiasm shown by this batch in joining the course at campus speaks volumes about their willingness to adapt and adopt the rapidly changing environment and stay connected to the ground which shall hold them in good stead in their journey ahead. Their experience of managing crisis with very limited resources make

them exceptionally critical resource for a business firm. The added advantage of the inherent quality of discipline, resourcefulness, perseverance, focus, adaptability and courage associated with the batch, being made ready for the transition from military to corporate is a trendsetter. The participants throughout the tailor-made course are exposed to the current business scenarios, armed with state-of-the-art concepts and analytical tools enabling them to be ready for

industry challenges. This current batch of dynamic professionals are endowed with a keen spirit and demonstrate the attitude to excel in any condition.

NITIE invites the corporate elite to come forward to unleash the potential within this select group for exponential growth of their respective organisations.

Prof. Neeraj Pandey

Associate Dean, Placement & Branding

“

This wonderful group of 50 selected participants ranges from young enthusiasts to experienced officers with significant experience attained during their careers in the Forces.”

With immense pride, we present the third batch of Armed Forces Officers undergoing the 24 weeks full-time Management programme in Business Management at NITIE, Mumbai. An interdisciplinary and accomplished team of highly experienced faculty members of our Institute is delivering the curriculum. This wonderful group of 50 selected participants ranges from young enthusiasts to experienced officers with significant experience attained

during their careers in the Forces. These immersion sessions and workshops give these Officers a simulated experience and understanding of the contemporary trends in the industries. Also, they become aware of the corporate world's unspoken yet mandated expectations. Given these officers' backgrounds and exposure to complex business situations at NITIE, they will make an invaluable resource for corporate houses. Their enthusiasm, desire to perform,

positive attitude and result-oriented approach adequately bridges in towards a solid entry into corporate experience.

We assure you that this batch has demonstrated tremendous commitment, dedication and zeal and we are confident that this dynamic group would be an asset to any organisation they choose to serve. I wish them the very best in their future endeavors.

MESSAGE FROM PROF-IN-CHARGE

Assoc. Prof. Ravindra Gokhale
Prof.-In-Charge, Placements

“

Leadership, ownership and accountability, strong work ethics and a “Can do” attitude are something which is developed in the armed forces. ”

It is my proud privilege to pen down thoughts on the bravest, most adaptable, and most talented Armed Forces participants who have served the forces/ nation with highest level of sincerity and commitment. Being a commissioned officer in the Armed Forces is a certificate in itself of having tremendous OLQs (Officer

Like Qualities) for which these Bravehearts are chosen through a tough assessment (by the Services Selection Board). Leadership, ownership and accountability, strong work ethics and a “Can do” attitude are something which is foundational in the armed forces. NITIE Mumbai program in Business Administration for these Officers

provides the requisite knowledge and hones their skills in corporate subjects. Just as the nation is proud of these officers, I am sure your organization will be more than proud to hire them to serve you with the highest level of unparalleled commitment. I welcome you to the hiring of DGMP-3 Officers at NITIE.

THE CORE & ELECTIVE COURSES

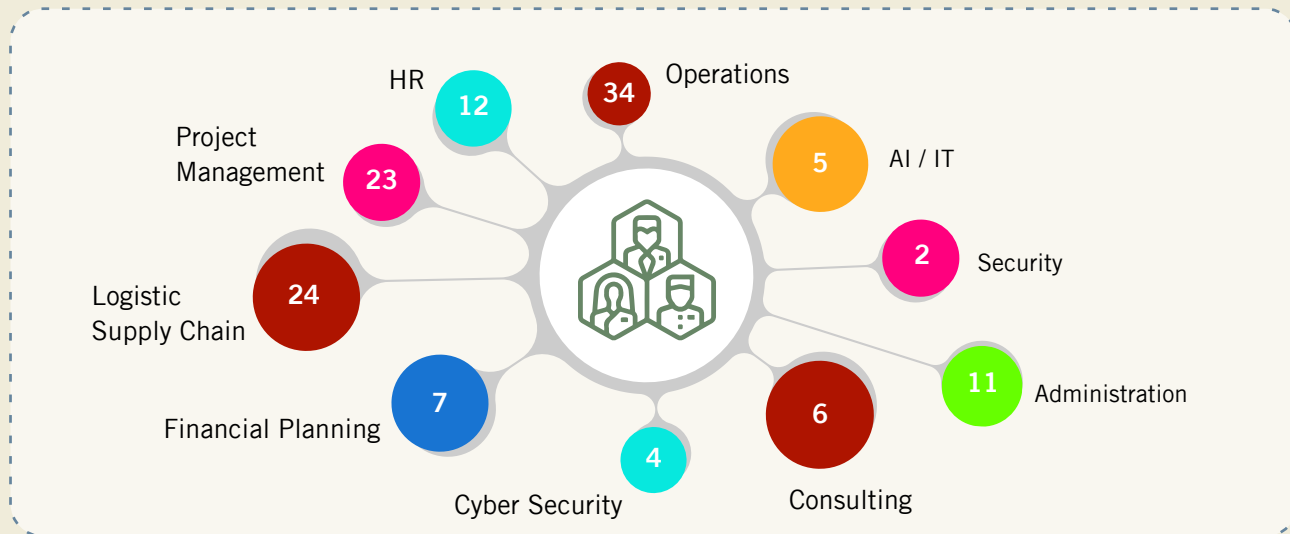

Core Modules

- 01
Operations & Supply Chain Management
 A broad area that covers both, manufacturing and service industries, involving the functions of sourcing, materials management, operations planning, distribution, logistics, retail, demand forecasting, order fulfilment, from suppliers to eventual consumers.
- 02
Project Management
 The application of processes, methods, skills, knowledge and experience to achieve specific project objectives according to the project acceptance criteria within agreed parameters.
- 03
Managerial Economics
 A stream of management studies that emphasizes primarily on solving business problems and decision-making by applying the theories and principles of microeconomics and macroeconomics.
- 04
Strategic Marketing
 Strategic marketing integrates a business with a marketing plan through specific and strategic processes which dictate the direction of the entire organisation in order to maximize its current marketing plan.
- 05
Managerial Accounting & Finance
 A stream which uses accounting techniques to create statements, reports, and documents that help management in making better business decisions and further analyses the impact of various financial techniques on business management.
- 06
Human Resource Management
 A strategic approach to the efficient management of people in a company or organization such that they help their business gain a competitive advantage. It is designed to maximize employee performance in service of an employer's strategic objectives.
- 07
Information & Decision Support Systems
 Study of information systems that aid business managers in quick decision-making by analysing huge volumes of unstructured data and synthesising information that can help to solve problems and help in decision-making.
- 08
Sustainability Development
 Sustainable development is an organizing principle for meeting human development goals while also sustaining the ability of natural systems to provide the natural resources and ecosystem services on which the economy and society depend.
- 09
Innovation Management
 The process of managing an organization's innovation procedure, starting from ideation to its successful implementation. It encompasses the decisions, activities and practices of devising and implementing an innovation strategy.

Placement Committee

The placement committee is critical in helping students secure employment after course completion. The committee is responsible for developing and executing a placement strategy that effectively connects students with potential employers and helps them secure internships, co-op positions, and full-time employment.

The placement committee works closely with the college's career services team and with industry partners to identify job and internship opportunities for students. It also organizes career fairs, workshops, and other events to help students prepare for the job search and connect with potential employers.

The importance of a strong and effective placement strategy cannot be overstated. It helps to ensure that students are well-prepared for the job market and have the necessary skills and experiences to succeed in their chosen careers. It also helps to build strong relationships with industry partners and to showcase the talent and potential of the college's students to potential employers.

Branding Committee

The branding committee is responsible for developing and executing a branding strategy that effectively communicates the unique identity and values of the course to its various stakeholders, including students, faculty, staff, alumni, donors, and the wider community.

The branding team works closely with the college's marketing and communications team to create a cohesive and consistent brand identity across all channels, including the college website, social media platforms, promotional materials, and other public-facing platforms.

The importance of a strong branding strategy for a course cannot be overstated. It helps to differentiate the course from similar offerings at other colleges and attract the best and brightest students. It also helps to build trust and credibility with potential employers and partners and to foster a sense of community and pride among current students and alumni of the course.
