DIRECTOR'S MESSAGE

NITIE is an illustrious institute setup under the aegis of Government of India in 1963, mainly for improving productivity across all Management Sectors. It is well recognised for teaching, research, consulting, training for Management Development Programmes ,for the corporates and Government Sector. Its uniqueness is in PG courses for Management, Sustainability and Industrial Engineering education, which produces techno functional managers capable of handling diverse challenges. These students are now the distinguished alumni serving Government best educational institutes, and top industries in India and abroad.

NITIE is known for its services to working professionals through its well-established management development programmes, Unit based programmes and consultancy services. NITIE has been providing services to many PSUs of India.

An institute is defined by the quality of students it has and their ability to go out and revolutionize the industry they work for in the future. At NITIE, we are committed to giving our students a high-quality education while also helping them to become well-

“
In more than 5 decades, NITIE has grown to a globally recognised institute offering multidisciplinary programs catering to future global requirements. Its uniqueness is in PG courses which produces techno functional managers capable of handling diverse challenges
”

rounded individuals so they can distinguish themselves from the pool of managers from other universities. We regularly interact with a range of corporate executives and managers from around the world, as well as academic experts who frequently serve as guest professors. These interactions give us information about the most recent developments in the market and help our students engage with their learning more deeply and be better prepared for job demands.

NITIE has been at the forefront of technological transformation, being the first institute to conduct the entire admission process and the classes online during the testing times of COVID-19. NITIE has very rich legacy of eminent alumni. Our alumni are occupying leadership positions in the industry. I look forward to interacting with alumni in different organisations. I look for support and contribution from every member associated with NITIE, internally and externally and let us all pledge to take it to spectacular height

Prof. Manoj K. Tiwari
Director

ABOUT NITIE

Established under the aegis of United Nations Development Programme (UNDP), NITIE was set up in 1963 and is as old as the evolution span of management studies in India. Amongst its policy makers and primary visionaries were luminaries like Dr. Vikram Sarabhai, Mr. S. Krishnamoorthy (Government of India), Mr. David Blickenstaff from the United Nations Special Fund, Mr. V.K.R. Menon from the International Labour Organization, Mr. H.D. Shourie, the Executive Director of National Productivity Council to name a few.

NITIE is an autonomous institution under the Ministry of Education, Government of India administered through a Board of Governors representing industry, government, labour and professional bodies.

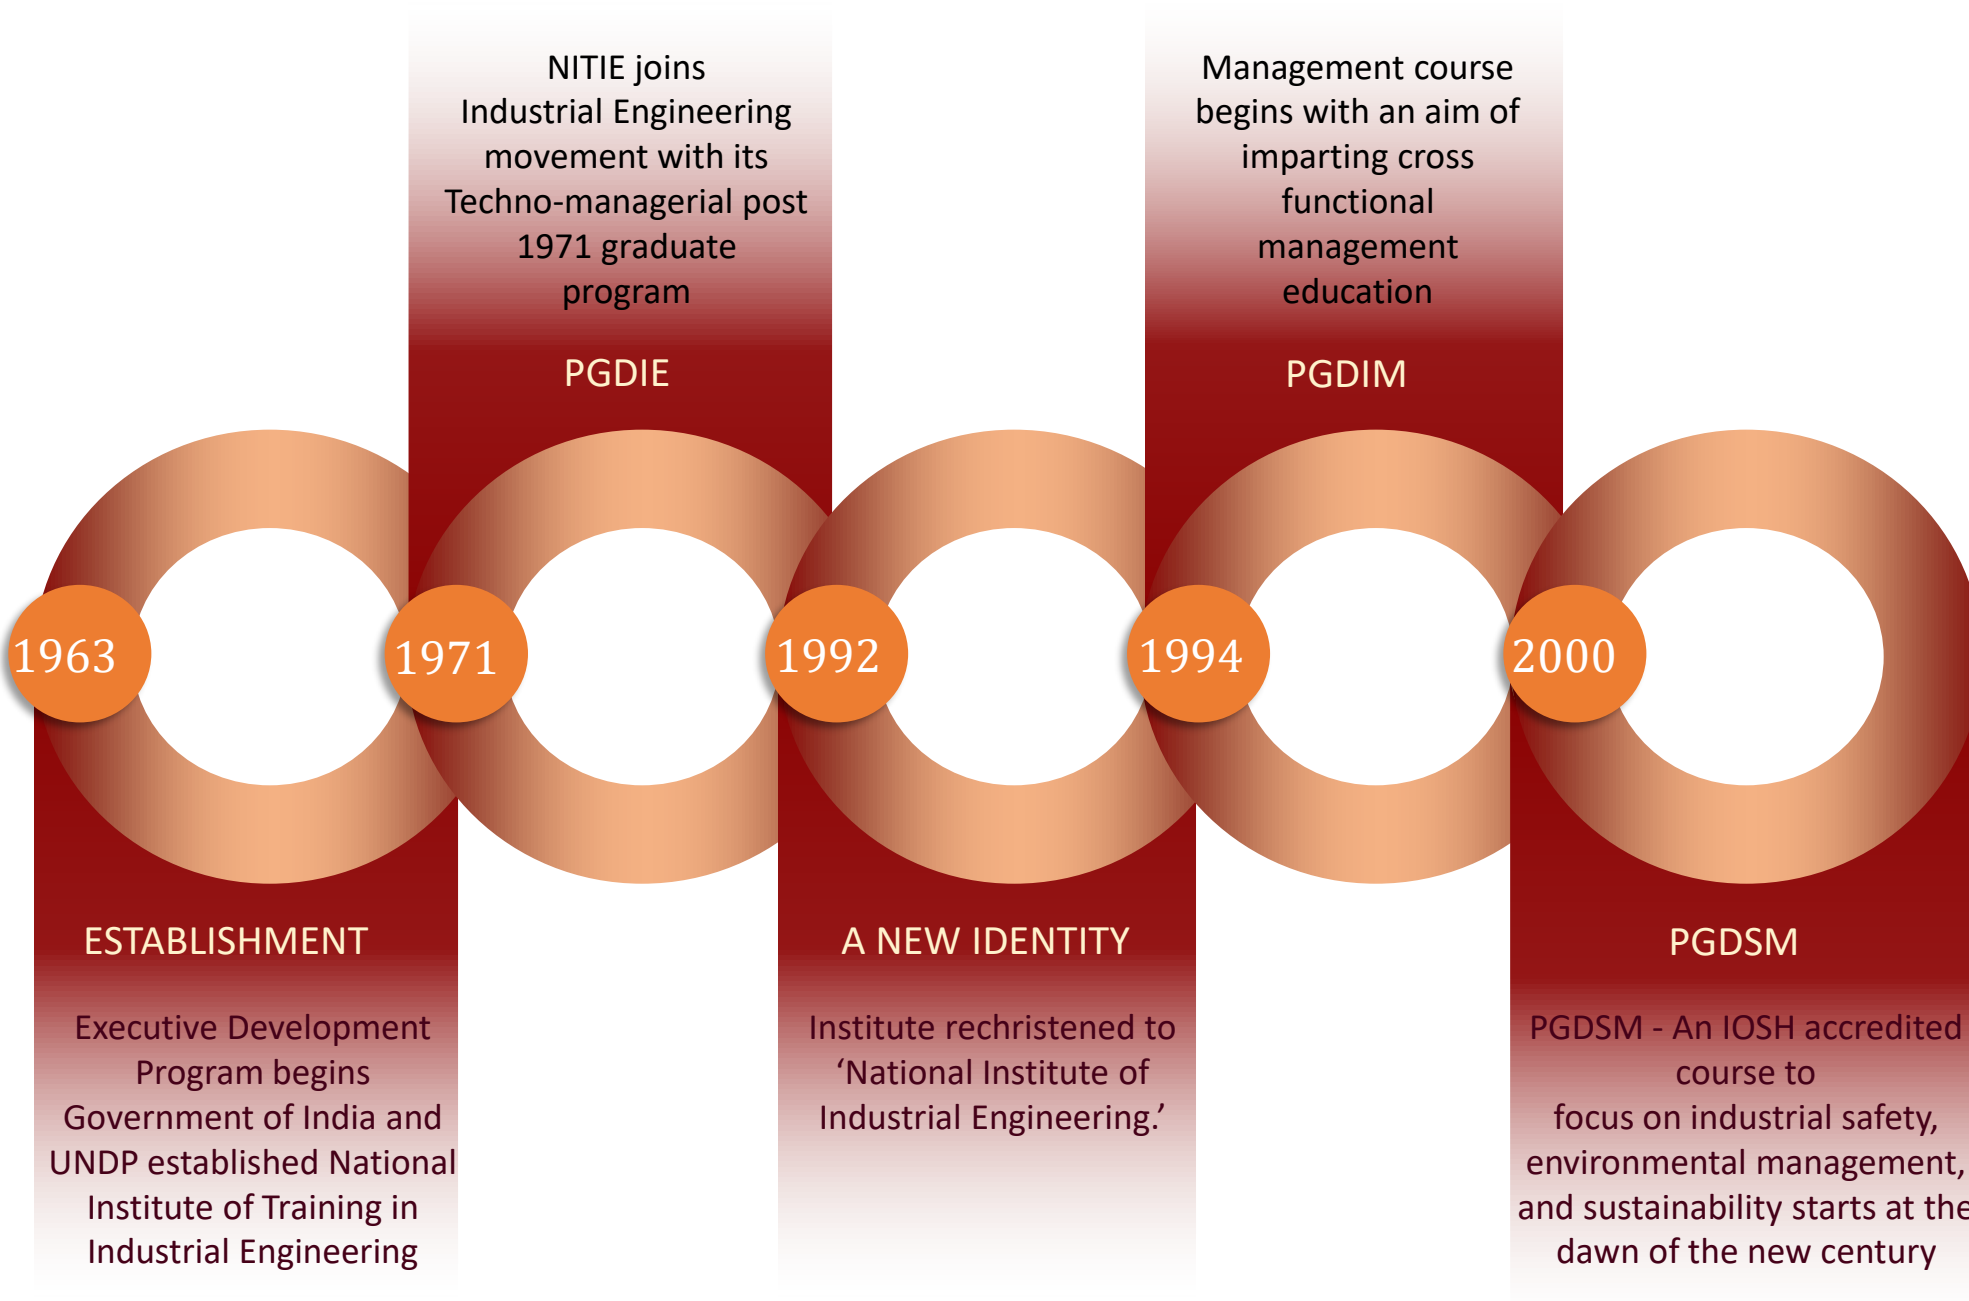

With the aim of “Udyog Pragati”, the institute endeavoured to nurture industrial excellence employing versatile industrial engineering tools. Nested in the sylvan woodlands between Vihar and Powai lakes, the buzz of campus activity gives away NITIE’s manifestation of the spirit of India’s commercial capital. With over five decades of affiliation with the industry, NITIE has emerged as one of India’s “Ivy-League” B-Schools and has been acknowledged as a “Centre of Excellence” by Ministry of Education in line with the IITs, IIMs and IISc.

NITIE is equipped with state-of-the-art learning facilities and boasts of faculty drawn from diverse disciplines having rich experience in teaching and consultancy. NITIE provides the industry with expertise in Supply Chain Management, Operations Management, Consulting, Information Systems, Marketing and Sales, Finance, Strategy, Sustainability Management, and Human Resources.

**NITIE’S CORE VALUES STAND FOR “PRAGATIE” -
PASSION, RESPECT, AGILITY, GENUINENESS,
ACCOUNTABILITY, TRUSTWORTHINESS,
INTEGRITY AND EMPATHY.**

A BRIEF HISTORY

INFRASTRUCTURE

NITIE believes that its students are products of the top-notch engineering institutions; hence they deserve excellence in support facilities. The infrastructure support it provides is just an expression of this belief. The classrooms are equipped with the necessary presentation facilities for participative learning.

Library

The library holds over 63,000 books along with nearly 10,000 back volumes of journals. It subscribes to over 252 professional and research journals. The e-library facilities include: Gartner Resources, CMIE, CFIC, FMIS, Wiley online library, EBSCO, Proquest, HBR online journal. The library is also an institutional member of APICS (USA), NYAS (USA), CAPAM (Canada), TIFR (Mumbai), TISS (Mumbai), IITs, IIMs, TERI (New Delhi), & NPC (New Delhi).

Computing Facilities

NITIE has the latest computing facilities which complement the pedagogy & administrative activities. The IT infrastructure includes a campus-wide LAN/Wifi, supported by multiple servers, 24x7 internet connectivity through a 300 Mbps dedicated leased line, 600 workstations spread across laboratories, classrooms & hostels. NITIE subscribes to specialized software packages like SPSS, Statistica, SAS, GPSS, Prism etc. Dedicated centers for training on Oracle, SAP, Baan IV Enterprise Tools also exist for imparting practical training

Classrooms

Students from both years were on-boarded online through various web platforms. Classrooms at NITIE are provided with the latest teaching aids, including LCD projectors, networked computers, cordless microphones & Wi-Fi routers. At the same time, we also believe in the conventional 'Chalk and Talk' method. At NITIE, the aim of each lecture session is to stimulate the minds of students through interactive discussion and two-way participation.

Recreational Facilities

NITIE is equipped with modern sports facilities which include flood-lit tennis and basket ball courts, a badminton court and a multi-utility sports field. It also maintains a scenic jogging track overlooking a pond. In addition, the hostels include libraries and reading rooms.

CAMPUS ACTIVITIES

Avartan

Decades ago, NITIE decided to take a step towards making a mark on the business school fraternity through the inception of events such as Prerana (1995), Lakshya (2000), Envision (2002), Empresario (2004) and Litmus (2007). The prime objective of these festivals has always been to provide the much-needed industry interface for the students. The umbrella event, Avartan, saw the amalgamation of Prerana, Lakshya and Empresario with the cultural festival - Arohan and the sports meet -Josh.

Lakshya Business Visionary Awards

NITIE felicitates the "Lakshya Business Visionary" awards in recognition and appreciation of the epitomes of industry who served in shaping the future of the Indian business landscape towards its sustainable development with their exceptional vision. The zenith of their vision is inspirational and informative. NITIE salutes such beacons for their diligence and commitment. In 2021, Lakshya Business Visionary award was conferred to **Mr. Arvind Krishna**, Chairman and CEO, IBM.

Lakshya Distinguished Leader Award

NITIE felicitates the "Lakshya Distinguished Leader Award" in recognition and appreciation of the paragons of India who served in shaping the future of the India in various fields through their sterling Leadership. NITIE accost such bonfires for their astonishing contribution to India.

The Lakshya Distinguished Leader Awards 2020 were conferred to:

Dr. K N Vyas, Chairman of the Atomic Energy Commission, Secretary to the Department of Atomic Energy

CAMPUS ACTIVITIES

Empresario Entrepreneurship Award

NITIE felicitates eminent entrepreneurs who had the courage to live their dreams, under the umbrella of 'Avartan'. Empresario Entrepreneurship Award is a salute to leaders who have set exemplary standards, inspired all with their ideas, beliefs, persistence, and unparalleled businesses. Entrepreneurs are the people equipped with the skills and courage to take new ideas to market and make it profitable. Their capabilities of innovating, introducing new technologies, generating new products and services are being bestowed with the "Entrepreneur of the Year" Award.

Empresario Entrepreneur of the Year Awards was conferred to:
Mr. Nand Kishore Chaudhary, Jaipur Rugs

Marketing Interest Group Fest

Marketing Interest Group organized its annual flagship event "**Marskfete 2022**" in February 2022. It consisted of **Marksense** – A marketing case study competition along with launch of annual Marketing Magazine "**Marketrook-22**". The main attraction of the event in 2022 was Straight Talk- A Panel discussion was organized on theme "Leveraging Customer Experience through MarTech".

The PAN-India level Marketing event helped students to:

- Learn and prove their potential of Digital Marketing skills, by being a part of a National campaign.
- Showcase the reach they have obtained on a marketing campaign designed by them on a National Platform.
- Live exposures on Digital Marketing skills and opportunities.

CAMPUS ACTIVITIES

Summer Project Contest

In the Summer Project Contest lies the genesis of Prerana. It has become a legacy that proudly continues till date. It provides a platform for second year-management students to showcase their summer projects and share their internship experiences. SPC traditionally comprises six modules - Finance, Marketing, Operations/SCM, HR, IT and Consulting. SPC has always been a keenly contested event ever since its inception, and Prerana 2020 saw over 500 entries across domains from students of premier B-schools.

On The Job Achiever's Contest

OJAC is an event unparalleled throughout Asia which helps in fortifying the budding managers to achieve their targets with a greater extent of effectiveness and efficiency. A platform for both industry - students and industry - industry interaction which provides insights into the issues faced by industries. Participation is under 5 well defined modules:
i) Industrial Engineering ii) Supply Chain Management iii) General and HR Management
iv) Systems and IT Management v) Operations Management.

MSME Entrepreneurship Conclave

Empressario successfully organised, Conquest, a techno-entrepreneurship conclave aimed at creating an enriching learning experience for the students and catalyzing their entrepreneurial zeal with the topic "Increasing MSME's competitiveness through innovation & entrepreneurship", and it saw the participation of Mr. Sanjay Joshi, Owner, K Bond; Mr. Sadashiv Survase, Joint Director of Industries, Maharashtra state; Mrs. Bhagyashree Sathe, Deputy Director, MSME Development Institute, Mumbai; Mr. A. C. Mouli, Deputy General Manager, SIDBI Mumbai; Shri P S Agwan, VP- COSIA, Mumbai

CAMPUS ACTIVITIES

Supply Chain Conclave

Under the umbrella of Lakshya, Supply Chain Conclave attempts to bring the best minds in the supply chain from different industries under one roof. This year's theme of the conclave was 'Leveraging Disruptive technologies for Supply Chain 4.0'. The noteworthy speakers were Mr. Hardeep Singh, Chief Executive Officer, 7-Eleven India; Mr. Dheeraj Shah, Global Head – Supply Chain Management, Tata Consultancy Services; Mr. Nandkumar Kulkarni, Director-Integrated Supply Chain, Mondelez India Foods Private Limited; Mr. Alagu Balaraman, Partner & Managing Director - Operations, CGN Global.

Finance Conclave

NITIE Finance Conclave is a setup for a confluence of the brightest people who run or monitor financial institutions to ponder on the burning issues in the world of finance. The theme of Financial Conclave 2021 was "Rethinking the concept of Money in Digital Era"

The event was graced by luminaries like:

Nitish Nath Shrivastav, Associate Director at KPMG India., Emmanuel Murray, Senior Advisor at Caspian Impact Investment Advisor Private Limited., Mandar Deshpande, Senior Product and Market Development Manager/Founder at National Payments Corporation of India(NPCI)/Sociante ., Swapnil Pawar, Director/Founder at Scient Capital/ASQI (Advanced Statistical and Quantitative Intelligence)., Abhisek Mohanty, Head of Model Risk Review and Insights at First Abu Dhabi Bank (FAB)., Sumit Maheshwari, Senior Vice President Finance at Odessa., Moderator: Prof M Venkateswarlu, Professor, NITIE

CAMPUS ACTIVITIES

Vivaad

Vivaad, the long-awaited national level debating competition of NITIE was successfully organized by the Personality Development Committee. It was an enthralling competition loaded with nuances of fun. Participants from the top management institutes were debating head on and neither team gave an inch going into the final round. Ms. Sonali Sinha, Founder & CEO, Soaring Eagles Learning Pvt Ltd; Mr. Ranjan Chakraborty, Head of Operations, Madeira and Mime; Mr. Cleon D'Souza, Manager - Talent acquisition, Synergy School of Business Skills; Ms. Poonam Singh, Assistant Professor, NITIE; were the jury members for the event and they could bring in 10+ years of pronounced experience from diverse fields on to the table. It was a pleasure and a very proud moment for the entire team to host them. The audience could relish every moment of the event and were themselves involved in a highly engaging quiz based on fun trivia.

Green Lantern

'Green Lantern', a keynote speaker session, is the flagship event of 'Envision', the sustainability and EHS event organised by Sustainability & You, an interest group. It is a stage where industry experts and leading speakers deliberate on how to address the rising challenges in the field of sustainability and EHS. This year we had with us a panel of 3 esteemed guests: Mr. Naresh Patil, Deputy Chief Sustainability Officer, Mahindra & Mahindra, Ms. Kalluri Soumya, Founder of Dwij Products, Prof. Seema Unnikrishnan, Course Coordinator- PGDISEM, NITIE The future of the Indian economy is not in competing on creating commodities with finite resources, but in a circular economy, in reusing, in putting things back into the economic cycle, in thinking in terms of cradle to cradle.

My Story

My Story is one of the flagship events from E-Cell NITIE Mumbai and provides a unique platform for the young minds to interact with the stars from the Entrepreneurial Ecosystem. The sessions act as a scaffold facilitating a rich and enriching experience of learning from the best within the industry about how they built their ventures - their life and mind laid bare before the student fraternity. The session transports into another world through these Master Storytellers - their passion and fire that sparked the idea and their struggles and travails that are behind the stardom of these enterprises today.

CAMPUS ACTIVITIES

Manufacturing Interest Group Conclave

The conclave focusses on latest developments and challenges in the manufacturing sector. This year's manufacturing conclave focussed on "Smart Factories- The Rise of the Digital Supply Network". Some of the eminent speakers from the industry who enlightened the audience with their experiences and latest trends in the manufacturing sector were Mr. Vinod Padmanabhan, Director of Manufacturing Operations, Raymonds Limited; Mr. Nc Chakrabarti, Vice President & Head- Smart Manufacturing Technology, Reliance Industries Limited; Mr. Anil Kartha, Head Manufacturing IT and Automation at Cipla; Mr. Anirban Saha, Head EHV Transformer & Reactor Business at CG Power and Industrial Solutions Limited; Mr. Amol Nagar, Director Manufacturing Operations & Global Supply Chain, GE Aviation.

Prerana Business Meet

Prerana Business Meet, the flagship event of Prerana, brings together eminent leaders of corporate India to deliberate on a chosen topic. The event seeks to unearth the valuable thoughts and insights of these industry pioneers. Held annually, the event has been a key driver of the transformative experience and industry interaction that management students look forward to. The theme of the event was "Is India riding the innovation wave in Business & Technology?"

The event was graced by luminaries like Dr. R S Sodhi, CEO, Amul., Mr. Suhail Sameer, Group President, BharatPe., Mr. Keki Mistry, Vice Chairmen and CEO, HDFC., Mr. Sanjeev Sharma, Country MD, ABB India Ltd., Mr. Ashwini Kr Tewari, MD and CEO, SBI Card., Mr. Sailesh Pathak, CEO, L&T IDPL., Mr. Netrapal Singh, CEO, Aditya Birla HFL., Mr. Sanjay Malik, Head of India Market and Senior VP, Nokia.

CAMPUS ACTIVITIES

Sansmaran

Sansmaran is an earnest endeavor by the Institute to express gratitude and affection towards its alumni and to keep the spirit of fraternity and belonging alive. Subsequently, after the alumni took a tour of the campus following which there was an open forum discussion on Higher Education and Start-ups. This was followed by the Annual General Body Meeting (AGM). This was followed by a sumptuous spread of lunch at the newly built academic building (ALB). This was followed by a felicitation ceremony in the auditorium of the new academic building. At the cultural night, Mr. Randhir Singh enthralled us all with his stunning performance. It was amazing to see them dressed in T-shirts specially designed for this special occasion

Alumni Awards

Every year NITIE applauds the achievements of its exceptional Alumni who have been the flag bearers of NITIE in the corporate world.

Distinguished Alumni Awards were conferred upon:

Mr. Sushil Kumar Rathi – Chief Operating Officer, Mahindra Logistics Limited

Mr. Rajiv Gandotra – Air Vice Marshal, AVSM - IAF Veteran

Promising Young Alumni Awards were conferred upon:

Mr. Mandeep Manocha – Co-founder & CEO, Cashify

Mrs. Vaishali Bansal – Deputy General Manager, Godrej Consumer Products Limited

PEDAGOGY

National Institute of Industrial Engineering has one of the most unique pedagogies among the top institutes of the country. With the aim of satisfying the needs of various industrial fragments, NITIE has one of the most diverse program offerings comprising of:

Post Graduate Diploma in Industrial Engineering - PGDIE

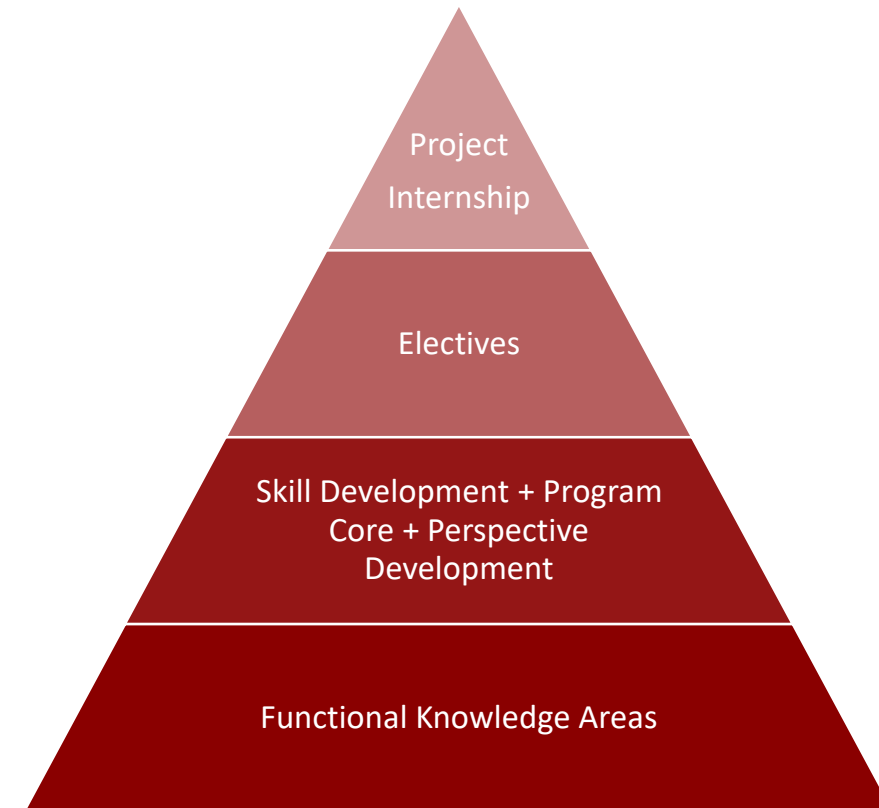

Post Graduate Diploma in Industrial Management - PGDIM

Post Graduate Diploma in Sustainability Management - PGDSM

Students are initially helped to build a strong foundation through courses that form a part of the 'Functional Knowledge Areas'. They cover various gamuts of management like Operations, Finance, Marketing, Economics, IT and Human Resources. Cross-sectoral skill needs of the students are addressed by courses concentrated on "Skill Development" like Statistics & Business Communication.

Students are also given a perspective of the industry across the 2 years through courses addressing "Perspective Development" like Sustainable Development, Legal aspects of Business. These groups of subjects help in creating a niche for a NITIE student in the industry.

The different programs offered mainly differ in their "Program Core" courses which are specific to the purpose defined in the individual programs. Candidates are nurtured and allowed to hone their specific skills to their programs through an exhaustive list of courses strategically placed across the 2 years.

A candidate can then set oneself apart within the program by efficiently choosing from the Electives on offer in order to position him/her in the minds of the recruiter. A hands-on experience is given to the students during their summer internships with the corporates and this is extended during their projects for a few programs.

PGDIE

POST GRADUATE DIPLOMA IN INDUSTRIAL ENGINEERING

About Us

PGDIE is one of the very few courses that has enjoyed corporate excellence for over five decades. Since its inception, it has been enabling students with methodologies and systematic approaches to deal with diverse industrial challenges. It has continuously evolved since 1971 and is designed to transform engineers into management professionals capable of steering organizations along the growth path. The program focuses on SCM, IT & Systems, Marketing, Finance, and HR Management. It has evolved as a course for developing managers for cross-functional skills.

Scope of the program

The most distinctive aspect of PGDIE program at NITIE is the flexibility that it offers. PGDIE covers a gamut of domains viz, Operations Management, Supply Chain Management, Manufacturing, Productivity Management, Logistics Management to name a few. The program is structured in such a manner that the students develop their analytical skills, planning skills, teamwork and interpersonal skills. Thus, an Industrial engineer from NITIE has seamless career opportunities in a gamut of industries viz Consultancy, FMCG, IT/ ITES, Banking/Finance, Manufacturing, Pharmaceuticals, Textile, Real Estate etc.

Admission Process

The meticulous admission procedure of its 49-year-old course, Post Graduation Diploma in Industrial Engineering (PGDIE) Program, ensures that only the “crème-la-crème” engineers who have already excelled in the prestigious Graduate Aptitude Test for Engineering make it through the institute’s hallowed portals. In order to uphold the tradition of excellence, this course has to offer, students are filtered through a multi-level admission process of GD and PI resulting in the selection of only the brightest and the best. In addition to a superior academic record and professional achievements, NITIE values analytical thinking, teamwork and interpersonal skills. This also ensures that the attitude as well as aptitude of the candidates, essential to join this course, are put to test.

POST GRADUATE DIPLOMA IN INDUSTRIAL MANAGEMENT

About Us

Post Graduate Diploma in Industrial Management aims to groom young managers who will design better procedures and systems & manage the technologies successfully through the blending of classroom work and hands-on industry internship. The managers are able to function effectively and effortlessly in the demanding environment and exploit emerging technologies and communicate to the advantage of the enterprise. To lead the industry in this new era, one needs self-reliant "intrapreneurs" who can provide the necessary vision and leadership. PGDIM aims at creating and developing managers with such skillset.

Scope of the program

The program strives to develop a holistic outlook that views the organization as an entity and not as a composition of fragmented functional areas. The interpersonal and leadership skills that the students develop as part of this course help them to manage issues present in complex industrial scenarios, with emphasis on teamwork that builds shared vision and objectives. The practical knowledge helps them to hone their skills to develop enterprises into smoothly functioning and efficient supply chains of products, services and information while enforcing internal and external customer relationships.

Admission Process

NITIE is rather fastidious, when it comes to admissions to the Post Graduation Diploma in Industrial Management (PGDIM) Program. The institute seeks students who are not only intelligent and highly professional but who can also bring fresh perspectives and energy, during their interactions with teachers and peers. In addition to a superior academic record and professional achievements, NITIE values analytical thinking, teamwork and interpersonal skills. In consonance with these objectives, students are put through a multi-level admission process that starts with CAT - Common Admission Test, followed by group discussion exercise for candidates clearing the cut off and ends with interview sessions. The selection process at NITIE is arguably amongst the toughest in the country, enabling only the brightest to come on board.

About Us

Post Graduate Diploma in Sustainability Management (PGDSM) Sustainability is a business approach to creating long-term value by taking into consideration how a given business operates in the ecological, social, and economic environment. Similarly, managing workplace safety is an important goal that many corporations have recognized as logical and effective way to provide a better working environment for employees and to cut corporate costs.

Scope of the program

The curriculum encompasses both managerial & technical perspectives and aims at developing managers who can address various safety and environmental problems effectively paving the way for cleaner and safer industrial practices. The program provides the students with the skills and knowledge necessary in the new business context of sustainable value creation. First program in country to get IOSH (International Organization for Safety and Health) accreditation. Approved as a Transitional Safety Practitioner (TSP) Qualified Equivalent Program (QEP) by the Board of Certified Safety Professionals (BCSP). Hands on experience of software like GaBi, SIMA Pro, SAFETI, PHAST etc.

Admission Process

NITIE is rather fastidious when it comes to admissions to the Post Graduation Diploma in Sustainability Management (PGDSM) Program. The institute seeks students who are not only intelligent and highly professional but who can also bring fresh perspectives and energy during their interactions with teachers and peers. RECRUITMENT PROCESS

Student Engagement Activities

PRE PLACEMENT TALKS

The recruitment process generally begins with the Pre-Placement Talks, which are a platform for candid and free interaction between the company and the students. It starts with the company presentation introducing the company, its growth path, and the career opportunities within the company, followed by an interactive discussion.

LIVE PROJECTS

Live Project opportunities, also known as Winter Internships give students the opportunity to work with Industries for a short duration, during which they make meaningful contributions for companies' projects which helps the recruiters gauge the cultural and organizational suitability of the student

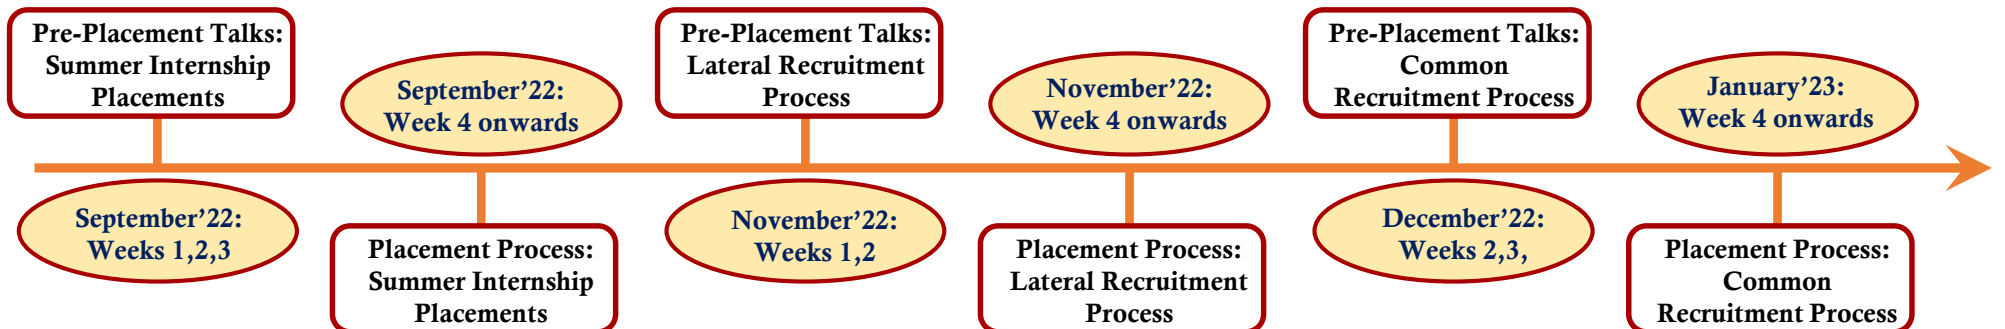

RECRUITMENT PROCESS

It involves the summer internship and the final placement process. For the final placements, the process is completed through Lateral Placement Process (LRP), in which students having more than or equal to 20 months of work experience take part, and the Common Recruitment Process in which Freshers and students with less than 20 months of prior work experience participate

CASE COMPETITIONS

Several organizations open their Case competitions for the students of NITIE. Our students have been National winners in competitions like Amazon Ace, Cummins Redefine, Flipkart Wired, and many more, thus proving their mettle at the highest levels.

Recruitment Timeline

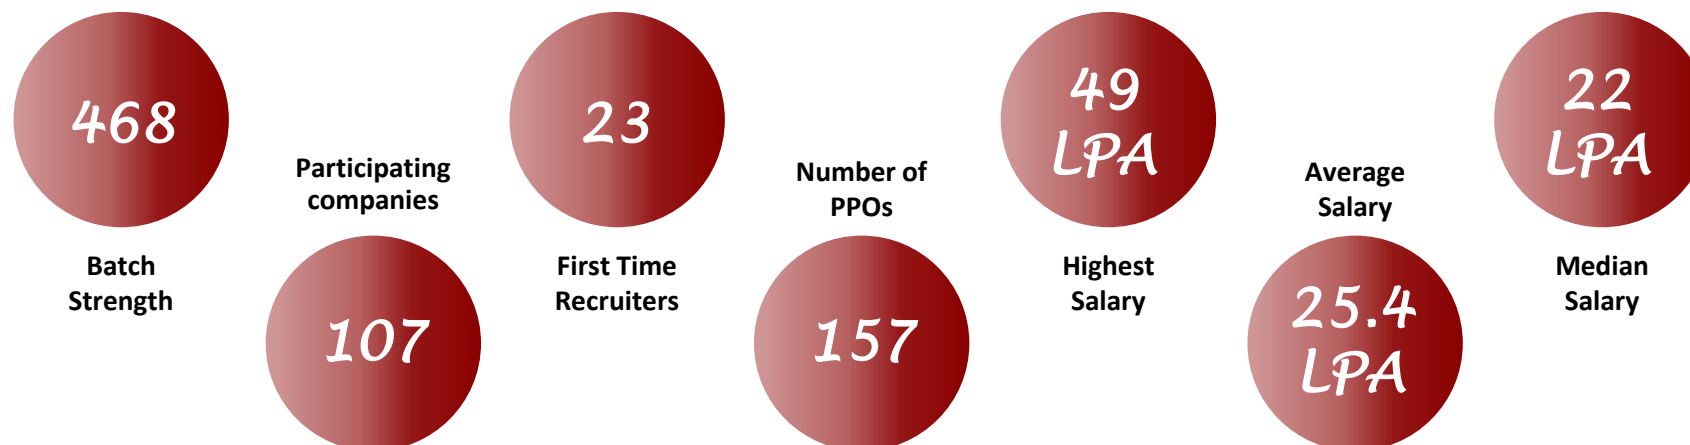

FINAL PLACEMENTS - 2022

National Institute of Industrial Engineering (NITIE) scaled new heights in the 2021-22 placement season. This year there was a substantial increase in the number of first-time recruiters visiting the campus. A wide spectrum of 126 companies from different sectors ranging from FMCG, and Manufacturing to Finance and Consulting participated in the process. The average compensation offered to the students was INR 25.41 LPA this season. With 35% of the total offers, Consulting attracted the largest number of offers this season. NITIE also continued to maintain a stronghold in the domain of Supply Chain, Operations & FMCG. Finance has developed a solid base at NITIE with 40+ offers across top companies

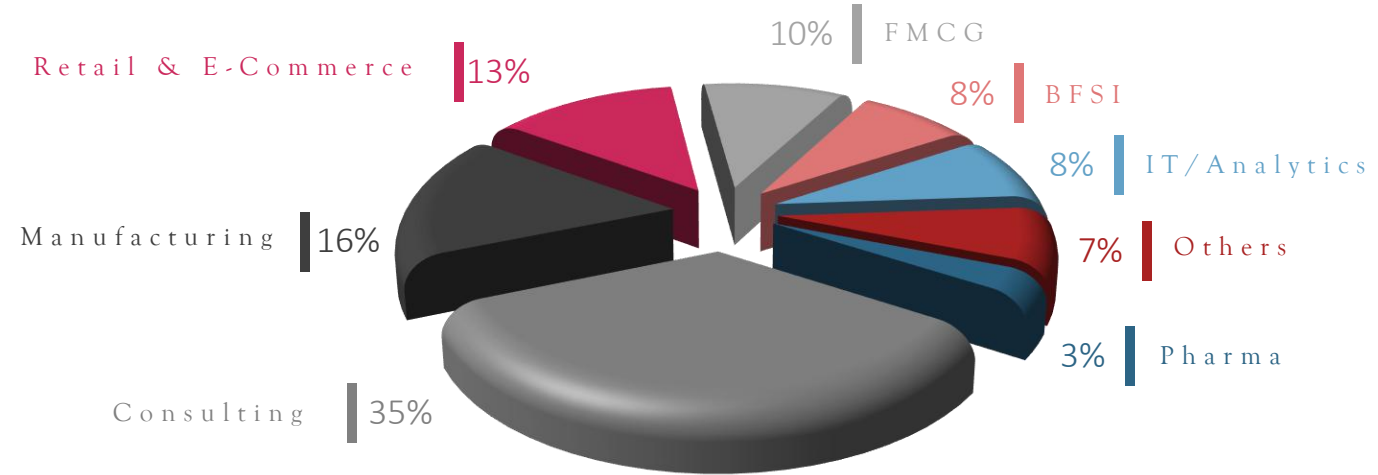

The highest domestic compensation offered to the students was 49.00 LPA with the top 10% of the batch attaining a compensation of 47.41 LPA. Leading FMCGs like P&G, HUL, ITC, Mondelez, Nestle, Marico, Asian Paints, Pidilite, etc. recruited our students in good numbers. Top Consulting companies like McKinsey & Company, Bain & Co., Deloitte, EY, KPMG, PwC-US Advisory, Cognizant Business Consulting, etc hired many candidates. We also had multiple Sales and Marketing Profiles offered this year. Esteemed recruiters like Delhivery, ETLI, and Wipro offered roles in this domain to the candidates. EHS, Project Management, and Sustainability Management have now proven to be the unique specialty here at NITIE as the batch drew a plethora of recruiters and found its right stronghold.
