### Advertisement Ref.: SRIC/Project/2023/24/E/21

IIM Mumbai erstwhile known as NITIE was established by the Government of India in 1963 with the assistance of the United Nations Development Programme (UNDP) and the International Labor Organization (ILO). IIM Mumbai has been consistently ranked among the top B-schools in India. IIM Mumbai is ranked 9th in the National Institutional Ranking Framework (NIRF) rankings for 2022 among Management Institutes across India. IIM Mumbai is committed to creating skilled professionals in diverse functional areas like Operations Management, Analytics, Finance, Marketing, Project Management, HR, Information Technology, and Sustainability Management.

#### **Project Title: Accounting for Digital Assets**

The Fintech revolution has accelerated the magnitude of digital transactions, and hence existence of digital assets across the world. While there seems to be no clear definition of a digital asset, a digital asset is anything that is stored digitally and is uniquely identifiable that organisations can use to realise value, whilst digital transactions refer to transactions that do not involve the physical transfer of money or paper-based documentation. There are no particular standards for accounting for digital transactions under GAAP, the current standards apply to such transactions. It is evident that enough work has not been done in India as to incorporate the digital assets and digital transactions from the Indian perspective. We, therefore, propose to work on accounting for digital transactions and assets from an Indian context.
