About the Program

Indian Institute of Management (IIM) Mumbai is the leading business school with 7th Rank amongst management schools in NIRF 2023. It is well known for Supply Chain Management and Industrial Engineering. We are looking for students to join our creative team of researchers for the role of **Data Scientist/Research Associate/Research Assistant/Research Intern.** The interns will be mentored by the Director and Senior Professors of IIM Mumbai.

Key Highlights

- **On-Campus, paid Internship** for a minimum period of **three** to **six months** which would be **extendable to one year** based on the intern's performance.
- Mentorship by **Director, Prof. Manoj Kumar Tiwari** and Senior Professors of IIM Mumbai.
- Collaborate with **industry professionals** & **IIM Mumbai Professors** for ongoing consultancy projects.
- Explore research areas of **Machine Learning**, **Artificial Intelligence and Operation Research** in the domain of **Logistics & Supply Chain Management, Data Analytics, Warehouse Operations, Finance, Digitization & Automation, Real-World Industrial Applications** and related fields.
- Guidance to interns who are preparing/looking to pursue **higher education** (M.S./Ph.D.) from esteemed universities.

Overview

The student/intern will work on various real-life prediction & optimization problems and ongoing projects in collaboration with industry professionals and professors from IIM Mumbai. It will be an On-Campus, Paid Internship under the Institute Development and Emerging Area (IDEA) Cell in the Sponsored Research and Industrial Consultancy (SRIC) section of IIM Mumbai.

Prerequisites

- UG students, Graduates, Postgraduates, or Working Professionals who are preparing/looking to pursue higher education (M.S./Ph.D.) in the next few years.
- Advanced coding skills in Python.
- Excellent communication, presentation, and problem-solving skills.
- Working knowledge of Linear Programming, Convex optimization, Machine Learning, and Deep Learning algorithms.
- Experience with related software will also be considered when reviewing applications.
- Students with previous research experience, and publications will be preferred.
- **Eligibility Criteria:**
  - For **Data Scientist:** Post Graduation or Ph.D. with advanced coding skills
  - For **Research Associate:** Post Graduation or Ph.D.
  - For **Research Assistant**: Graduation
  - For **Research Intern**: Undergraduate students

Roles and Responsibilities

- Gather data through interviews and/or field observation.
- Formulate models to tackle the industry problem and prepare a comprehensive report of the work.
- Contribute to various projects, such as conducting research, analyzing data, or developing presentations.
- Solving research problems related to the PM Gati Shakti National Master Plan.

Benefits

- Letter of recommendation and internship completion certificate will be provided.
- Opportunity to publish a research paper in top-tier journals and conferences.
- Networking with renowned industry professionals and consulting firms.
- Shadowing, mentoring, and training opportunities with experienced and accomplished senior professors and business leaders.
- Flexible schedule for students.
- Project staff may receive HRA equivalent to 10% of their monthly stipend if campus accommodation is not provided. If campus accommodation is provided to the project staff, 10% of their monthly stipend will be deducted towards HRA.
